Product Description

The Netis P110GC is an 8-port PoE Gigabit switch designed for small to medium business networks. It features 8×10/100/1000M PoE ports, 2 uplink RJ45 ports, a 20G switching capacity, and a 2K MAC address table, ensuring fast, stable, and reliable network performance. Its plug-and-play setup and durable metal casing make it ideal for IP cameras, access points, and network expansion in offices, commercial spaces, and smart home setups.
